EcoPro Consultancy Capability Statement

EcoPro's qualified Environmental Auditor, Fiona Sleight, is a Sustainability Coach for Business Chamber Queensland's ecoBiz Program and a National Auditor for Ecotourism Australia Certification Programs.

EcoPro works with Businesses to guide the development of Business and Environmental Management Systems in line with best practice in sustainability and resource minimisation.

EcoPro assists Tourism Operators to develop and showcase their tourism credentials and demonstrate they meet the triple bottom line of sustainability: Economic, Environmental and Social/Cultural.

EcoPro facilitates the development of policy and operational practice in relation to the key areas of Sustainable Tourism Certification and interpretation planning which enhances customer experience.

EcoPro specialises in:

- Environmental Audit and Certification Benchmarking Service
- Operational Procedures and Business and Marketing Management Plan Preparation
- Environmental Management System Development and Documentation
- Waste Audit, Emissions Investigation and Completion of Carbon Calculator
- Interpretive Activity and Guide Professional Development
- Drafting Permit and/or Grant Application Submissions

EcoPro is a consultancy service established by Fiona Sleight and built on her experience in the fields of sustainability coaching, policy development, tourism marketing, training, and tour guiding.

Fiona Sleight's Environmental and Tourism Expertise:

- BSc. Hons Degree with Post Grad Cert. Science in Protected Area Management
- RABQSA Environmental Management Systems Lead Auditor
- Diploma Travel and Tourism Management
- Certificate IV Business Sustainability Assessment
- Certificate IV Training and Assessment
- Ecotourism Australia Certification Assessor and Auditor
- Business Chamber Queensland ecoBiz Sustainability Coach
- Accredited EcoGuide and PADI SCUBA Instructor
- Winner of 2003 Ecotourism Australia EcoGuide Award for Excellence for work with Quicksilver Dive Minke Whale Project.

EcoPro Consultancy utilises a Carbon Emissions Calculator annually to track business emissions and uses renewable energy, with the office powered by solar PV. EcoPro contributes to planting trees at Mabi Forest Restoration Project via Reforest with a commitment to purchase a tree each month.
